

KARPEDICON 2024

43rd Annual Karnataka State Pediatric Conference

18th, 19th & 20th October 2024

PEDIATRIC NEUROLOGY WORKSHOP

Date: 18th October 2024, Time: 9am to 5pm

Venue: NeuroZone, Gopal Gowda Shanthaveri Hospital, Nazarbad, Mysore

HIGHLIGHTS

PRELUDE

Keeping up with changing times, this workshop is targeted at equipping the new-age pediatrician with recent advances in the management of pediatric neurological emergencies. Use & interpretation of neurological investigation modalities will be focused upon. Concise course material will be provided to all attendees at the end of workshop.

OBJECTIVES

- * Recent advances in management of pediatric neurological emergencies.
- * When to request and how to interpret neurophysiological investigations.
- * Basic neuroradiology.

Who all should attend? Postgraduates in Pediatrics, Practising Pediatricians

TOPICS COVERED

- Acute Flaccid Paralysis
- Status Epilepticus
- Approach to a child with altered sensorium
- Approach to evaluation and management of a child with suspected IEM in PICU

WORKSTATIONS

- Neuroimaging
- Electrophysiology (EEG, NCV, VEP, BAEP)
- Lumbar puncture

Registration limited to first 40 members

Registration fees: Rs.1000/-

KARPEDICON 2024

43rd Annual Karnataka State Pediatric Conference

18th, 19th & 20th October 2024

PAEDIATRIC PROCEDURAL TRAINING WORKSHOP

Date: 18th October 2024, Time: 9am to 5pm

VENUE: 'Skill and Simulation Centre', JSS Academy of Higher Education and Research (JSS Old Hospital), MG Road, Mysore.

HIGHLIGHTS

Paediatric Procedural Training Workshop, a comprehensive hands-on training designed to equip paediatricians with the skills and confidence necessary to perform critical paediatric procedures. Our workshop program is uniquely structured to provide practical, real-world experience through the use of simulators, phantom and animal models. This approach ensures that participants can practice and refine their skills in a controlled, safe environment before applying them in clinical settings.

Learning Objectives

- Gaining familiarity with Paediatric Procedural equipment and instrumentation.
- Understanding indications, contraindications and complications associated with paediatric procedures.
- Practicing safe and effective procedural techniques in simulated and clinical settings.
- Recognizing and responding to Paediatric Procedural Emergencies

Who all should attend ?

Post graduates and Practicing Paediatricians who are actively involved in taking care of Paediatric emergencies and critically ill children.

TOPICS COVERED

- Central venous line insertion.
- PICC line insertion.
- Arterial line insertion.
- Intercostal drainage insertion
- Intraosseous line insertion
- Management of Difficult Airway

Registration limited to first 30 members

Registration fees: Rs.1000/-

43rd Annual Karnataka State Pediatric Conference

18th, 19th & 20th October 2024

PRACTICAL PAEDIATRIC ALLERGY WORKSHOP

Date: 18th October 2024, Time: 9am to 5pm

VENUE: Hotel in Mysuru

HIGHLIGHTS

PRELUDE

Allergic disorders amongst children are on a steady rise across the globe. People living in the developing world are affected worst due to lack of infrastructure and knowledge gap among Paediatricians. This workshop has been designed to bridge the increasing gap between doctors and patients and to provide quality medical care through increased awareness and hands on training in practical aspects of paediatric allergy.

LEARNING OBJECTIVES

- To bring together in one place educational facilities for management of paediatric allergy through lectures and discussions from leading international and national experts in the field of allergy and also to provide hands on experience so that the trainees are able to gain self confidence in managing paediatric allergy patients.
- At the end of workshop trainees should be confident enough to diagnose, treat and counsel patients with common allergic conditions like U5 wheezer, asthma, allergic rhinitis etc

Who all should attend ?

Practising Paediatricians | Paediatric Postgraduates | ENT Doctors/Postgraduates
General doctors involved in care of children

TOPICS COVERED

- Basics of allergy as applied to clinical practice
- Under 5 wheezer-Is it Asthma? How do I manage?
- Diagnosis and treatment of Asthma in a child above 5 years
- Allergic rhinitis in children-what a pediatrician should know
- Food allergies in children-Myths and realities
- Atopic dermatitis – can a Pediatrician manage
- Anaphylaxis-what all of us have to know
- Urticaria in children-practical aspects
- Hands on training on spirometry, Allergy skin test and various Inhalational Devices

KARPEDICON 2024

43rd Annual Karnataka State Pediatric Conference

18th, 19th & 20th October 2024

POINT OF CARE ULTRASOUND (POCUS) IN CRITICALLY ILL CHILDREN WORKSHOP

Date: 18th October 2024, Time: 9am to 5pm

VENUE: Apollo BGS Hospitals

LEARNING OBJECTIVES

- Keeping it simple—why and when we need POCUS
- More Hands-on workshop with less lectures by team of Pediatric Intensivists, Pediatric Cardiologist and Radiologist
- Practical bedside applications with case based approach
- Learning patient management strategy and decision making in real time
- Binding to Basics!

Who all should attend ?

Post graduates in Pediatrics | Pediatricians handling critically ill child
Pediatricians working in PICU set up

TOPICS COVERED

- Principles of ultrasound and to know knobs & probes
- Lung ultrasound and its bedside application
- Basic views of Echocardiography
- Hemodynamic assessment of Fluid responsiveness
- Assessment of systolic and diastolic function in shock
- Optic Nerve Sheath Diameter (ONSD)

Registration limited to first 30 Delegates

Registration fees: Rs.1000/-

18th, 19th & 20th October 2024

PAEDIATRIC AND NEONATAL VENTILATION WORKSHOP

Date: 18th October 2024, Time: 9am to 5pm

VENUE: Sigma Hospital, Mysore

HIGHLIGHTS

PRELUDE

This is an interactive, practical and comprehensive workshop which is aimed at enhancing the knowledge of paediatric and neonatal ventilation through lectures and workstations. The delegates will be split into smaller groups to provide them with maximum hands on opportunities. The course teaches essential skills that equips the practising health care professional in managing cases that require ventilation in PICU/NICU/HDU settings.

Who should attend ?

Practicing Paediatricians, Paediatrics Postgraduates, Critical Care & Neonatal fellows, Neonatal & Paediatric Nurses working in ICU

TOPICS COVERED

- Respiratory physiology in Child and Neonate
- Xray/ABG interpretation
- Setting up a ventilator and knobology
- Simulation Scenario Eg: Deterioration of a Ventilated child/neonate
- Different modes of Ventilation-Invasive and Non invasive
- Care Bundle, Weaning & Extubation.
- Pulmonary graphics
- Video laryngoscopy, alveolar recruitment using animal models
- Disease specific Ventilation
- Discussion of case scenarios

Registration limited to first 40 registrants

Registration fees: Rs.1000

KARPEDICON 2024

43rd Annual Karnataka State Pediatric Conference

18th, 19th & 20th October 2024

PRACTICAL PEDIATRIC ENDOCRINOLOGY WORKSHOP

Date: 18th October 2024, Time: 9am to 5pm

VENUE: Hotel in Mysore

HIGHLIGHTS

- Anthropometric assessment and emphasis on use of growth charts to identify children with growth disorder
- Understand stages of sexual maturity-Basics
- Integrate information from history, physical examination and pertinent labs to establish a diagnosis in pediatric endocrinology cases—practical approach
- Learning ambulatory management of type 1 diabetes mellitus

Who all should attend ?

Practising pediatricians | Pediatric postgraduates | General doctors involved in care of children

TOPICS COVERED

- Assessment of anthropometry and puberty
- Plotting on growth charts including extended growth charts, hands on Z score calculations and their interpretation
- Bone age assessment—hands on
- Case solving in pediatric endocrinology—practical approach
- Type 1 diabetes mellitus—Types of insulin and insulin devices, Self Monitoring Blood Glucose (SMBG) and Continuous Glucose Monitoring Systems (CGMS)

Registration limited to first 30 registrants

Registration fees: Rs.1000/-

PEDIATRIC NEPHROLOGY WORKSHOP

Date: 18th October 2024, Time: 9am to 5pm

VENUE: Aarya Hospital, Krishnamurthipuram, Mysuru

HIGHLIGHTS

- Basic concepts on Acute Kidney Injury and Chronic Kidney Disease
- Introduction to modalities of Renal Replacement Therapy
- Workstation-Peritoneal Dialysis Catheter insertion
- Workstation- Hemodialysis machine- understanding the nuts and bolts
- Case based interactive learning sessions

Who all should attend ?

Post graduates in Pediatrics | Pediatricians /Neonatologists handling sick children

LEARNING OBJECTIVES

- Define and understand Acute Kidney Injury and Chronic Kidney Disease across age groups
- Identify indications for Renal Replacement therapy and choosing the suitable modality
- Gain knowledge and skills to initiate Peritoneal dialysis in resource constraint settings
- Understand basics of hemodialysis machine and monitoring a child on Hemodialysis
